

SUMMARY OF EXAMINER INTERVIEW

Applicants would like to thank the Examiner for contacting Applicants' representative on September 9, 2008, and for participating in another telephone conversation on September 16, 2008. Applicants would like to thank the Examiner for suggesting amendments that would place the claims in a better position for allowance. Specifically, the Examiner suggested that amendments to the independent claims directed to presenting the orders in the attachment viewer might result in allowable claims. The Examiner's suggestions have been adopted in the amendments above to independent claims 1, 8, and 15.
